

You only have one smile

At the end of the day, you only have one smile. Make it your best with the help of your provider and Clarity Aligners.

Enjoy a world with clarity

Clarity Aligners are almost invisible, but their results aren't. The custom-fit aligners are stain resistant and so clear your friends won't even notice them.

You're worth it

Clarity Aligners will make you smile about your smile. They are an investment not only in your appearance, but in your long-term oral health. You deserve it!

Five reasons you'll love Clarity™ Aligners

Clarity Aligners fit into your busy lifestyle—they're discreet and removable

It's convenient to maintain flossing and good oral hygiene habits

You can eat what you want, when you want—just remove your aligners

Each set of Clarity Aligners is **custom-fit** and created just for you

Time tested, after all, we've been in the business of moving teeth for over 75 years

It's your time to shine

The power of your smile

Simply moving your facial muscles to form a smile has the power to improve your mood.

Because of the mind-body connection, our facial expressions reflect how we feel and contribute to how we feel.¹

Smiling causes people to appear younger.

In a study, smiling people were perceived as younger than people with frowns.²

Smile strength or intensity can predict long-term relationship success.³
